Public Health Press Release

Seasonal Influenza Vaccinations Are Here!

Now is the time to get your shot. Newton County Health Department will begin vaccinating on September 11, 2017. We will administer vaccine on a walk in basis from 8:00 am – 3:30 pm, Monday through Friday.

This year we will be offering two different presentations of the 2017-18 influenza vaccine. All residents will be screened to determine which presentation is indicated for their age and health condition.

The Newton County Health Department will bill Medicare Part B for individuals 65 years and older. We are not able to bill Medicare Advantage plans at this time. Please bring your Medicare card.

The different presentations of the 2017-18 influenza vaccine will also be available for cash purchase.

The price of the vaccine will be as follows:

The influenza vaccine injection will be $20.00 (this is indicated for ages 3 years to 64 years).

The High Dose vaccine will be $45.00 (this is indicated for ages 65 years and older).

Seasonal influenza vaccination will be available for purchase for pregnant women.

If your child is uninsured or has Medicaid please call the nursing department.

If you have any questions, you may contact the Nursing Department of the Newton County Health Department at (417) 451-3743.
