Public Health Press Release

Seasonal Influenza Vaccinations start in September

Now is the time to get your shot. Newton County Health Department will begin vaccinating for influenza September 2, 2014. We will administer vaccine on a walk in basis from 8:00 am – 3:30 pm, Monday through Friday.

We will be offering several different presentations of the 2014-15 influenza vaccine. All residents will be screened to determine which presentation is indicated for their age and health condition.

The Newton County Health Department will accept some health insurance plans and Medicare. The different presentations of the 2014-15 influenza vaccine will also be available for cash purchase.

The price of the influenza vaccine ranges from $25.00 to $35.00.

Seasonal influenza vaccination will not be available for pregnant women.

If you have any questions, you may contact the Nursing Department of the Newton County Health Department at (417) 451-3743.
